

# Patrick Sweeney

Integration Specialist/Full Stack Web Developer

20 North State Street,  
Warren, PA, 16365

814-331-6059

blueshift9@gmail.com

## OBJECTIVE

My objective is to find a new position as a full stack web developer. I have over a decade of experience with many different web development technologies, and would love to bring my talent to a new team.

## EDUCATION

Empire State College '13  
Associate of Science

## PROFILES

<https://github.com/blueshift9>

## SKILLS

PHP (Frameworks: Laravel, Symfony, FuelPHP)  
MySQL/MariaDB  
Javascript and jQuery  
HTML5 and CSS  
Linux Administration  
Git and Github Version Control  
Vue.js / React  
Mobile App Development  
Dart (Flutter Framework)  
Login Integration (Salesforce, Absorb, NetForum)  
CSS Frameworks / Preprocessors (Bootstrap, Foundation, Tailwind, Sass, LESS)  
Redis – Docker - Haproxy  
Testing (phpUnit, Puppeteer, Jest)

## EXPERIENCE

*October 2012 - Present*

**Full Stack Web Developer / Integration Specialist • Digitell, Inc.**

My team and I built the Opus online LMS. I am the integration specialist, so I built out the endpoints that we use to consume data from our clients and to send data back to them. In addition to taking the lead on integrations, I've built many different modules of functionality. This included modules for forums, shopping carts, event pages, user evaluation and testing, and reporting. My team has built numerous mobile applications for clients, based on Flutter. I have built "all-in-one" USB drives with audio and video. Trained internal users on how to use tools, used feedback to design the best tools. I deployed new code, and followed the Agile methodology. I also paired with co-workers in a remote environment.

*January 2012 – October 2012*

**Web Developer • CJ's Home Décor and Fireplaces**

I maintained the approximately 10 websites that CJ's ran, designed and deployed new sites, and maintained the servers and IT infrastructure.

*September 2006 – Jun 2007*

**Web Developer • McKissock LP**

Maintained previous version of McKissock.com and helped to start building their current Admin tool.

## LEADERSHIP

At Digitell, as a senior developer, I reviewed the code of my team and deployed it to production. I also tutored our junior developers. I documented new and existing processes and improved workflows.
